

**Product name:** Rice Protein Granule PD60

**Package:**

15kg per bag; 15kg per carton.

**Shelf life:**

18 month from date of manufacture in a clean, dry environment at ambient temperature and humidity in original packaging

**Standard:**

GB 17401

### | Characteristics

Using rice protein powder and rice as the main materials, the particle products with uniform size are produced by extrusion process

**| Ingredient** Rice protein powder, rice, tapioca starch, calcium carbonate

**| Application** Nutrition bar, Snack Food, Cluster, Granola, Cereals, Confectionery, Crunchy Toppings.

### | Physical Properties

Color Light yellow  
 Shape Particles  
 Flavor Rice  
 Foreign Material None

### | Specification

Moisture  $\leq 7.0\%$   
 Under the sieve (mesh:18)  $\leq 5.0\%$   
 Bulk density (g/L)  $235 \pm 25$

### | Microorganism

Aerobic Plate Count (CFU/g) Max 100000/g  
 Coliform (CFU/g) Max 100/g  
 Yeast and Molds (CFU/g) Max 100/g  
 Pathogenic bacteria Negative

### | Nutrition Facts

Item	Per 100g	NRV%
Calories	1614kJ	19%
Protein	63.1g	105%
Fat	5.3g	9%
Carbohydrates	20.3g	7%
Sodium	60mg	3%
